Achievements

Scribble — 1st Place Overall / Tech Night 2019

Code Collab — 1st Place Overall / Def Hacks

HOWL — 2nd Place Sustainability / HackNYU 2020

Transit Tardiness — 2nd Overall / Stuyhacks VI

EventREP — Best Hardware / Stuyhacks IV

Education

NYU SPS — **Cybersecurity** / October → November 2019

Columbia University — **5G Conference Participant** / December 2nd, 2019

Beacon High School — **Student** / Graduating June 2021

Skills

Development — Typescript, Golang, Kubernetes, REST, GraphGL, NodeJS, React, NextJS, Gatsby, Testing, Git

Design — UI/UX Design, Product Flows, Brand Development, Wireframes, Prototyping, Design Systems

Experience

Nano Hacker Academy — Mentor
Manhattan / January 2019 → Current

NHA is where I was first introduced to coding with Scratch and HTML/CSS when I was 7. Since then, I have either attended or taught classes most Friday nights. NHA has taught me many valuable skills over the years and has helped me grow exponentially as an engineer.

xoSoftware — Frontend Lead
Remote / September 2019 → Current

At xoSoftware I am leading frontend development on the most recent product, a proxy provisioning tool using **React**, **Typescript**, **Webpack** and **Electron** to create a near-native user experience.

Sole Retriever — Freelance (Full Stack)
Remote / August → September 2019

As the single engineer at Sole Retriever, I worked towards revamping their old, Wordpress website to a faster one utilizing **GraphQL** and **NextJS** to make a better experience for customers.

Tranton Reselling Services — Frontend Engineer
Remote / February → July 2019

At Tranton I worked with a quite large team to craft pragmatic experiences for their customers across all child companies.
